

START YOUR PENETRATION TESTING CAREER

ENROLL IN NETSPI UNIVERSITY

Getting started in cybersecurity? Looking for a career change? NetSPI University (NetSPI U) is a full-time, paid training program that focuses on penetration testing. Start your cybersecurity career with NetSPI, the leader in enterprise pentesting and attack surface management.

During the six-month training program, you will gain a baseline skill set to execute web application pentests – setting a foundation for growth in the penetration testing industry.

NetSPI U features classroom-based learning, hands-on labs, and opportunities to shadow/mirror some of the most brilliant minds in cybersecurity. You will also have the ability to contribute to new and innovative tools, techniques, and methodologies.
